PROFESSIONAL SUMMARY

AI Automation and Marketing Operations Specialist who builds and maintains n8n workflows that connect APIs, CRMs, and cloud services to automate marketing reporting and strengthen data quality. Experienced integrating GA4, Meta Ads, HubSpot, Jobber, and Angi data with Google Sheets and Cloudflare (Workers, D1, R2). Combines workflow automation, JSON and data transformation, and AI-assisted development with Claude, ChatGPT, and the OpenAI API to replace repetitive manual work with reliable automated processes.

TECHNICAL SKILLS

- **Automation & Integration:** n8n, REST APIs, webhooks, conditional logic, workflow scheduling, deployment, troubleshooting
- **CRM & Marketing Data:** HubSpot, GA4, Meta Ads, Jobber, Angi, Google Sheets
- **AI & Data:** Claude, ChatGPT, OpenAI API, prompt design, JSON transformation, data cleaning, AI-powered workflows
- **Cloud & Coding:** Cloudflare Workers, D1, R2, DNS, access controls, JavaScript (basic)

PROFESSIONAL EXPERIENCE

GreenAttic — AI Automation and Marketing Operations Specialist December 2025 – October 2026
Remote

- Designed, built, and maintained n8n workflows that automated marketing-operations and reporting tasks across the business.
- Integrated GA4, Meta Ads, HubSpot, Jobber, and Angi through APIs and webhooks to centralize marketing data for processing and reporting.
- Connected Google Sheets, HubSpot CRM, and Cloudflare services (Workers, D1, R2) into automated pipelines for data flow and storage.
- Built conditional logic and data-transformation steps that standardized records and resolved missing or duplicate data.
- Applied Claude, ChatGPT, and the OpenAI API for workflow development, troubleshooting, and AI-assisted data processing.
- Automated recurring reporting and data tasks, cutting repetitive manual work and improving data reliability.

SELECTED PROJECT

AI-Powered Marketing Data & Automation Workflows

- Built a suite of connected n8n automations used in live marketing operations.
- Ingested data from multiple marketing sources and routed it to Google Sheets, HubSpot CRM, and Cloudflare D1/R2.
- Automated data collection, reporting, AI-assisted summarization, and notification and follow-up steps.
- Improved the consistency and turnaround of marketing reporting through end-to-end automation.

EDUCATION & TRAINING

- **University of the East – Caloocan** — BS Computer Engineering (Undergraduate)
- **n8n Quickstart** — Completed October 2026
